

Well Inspection NOTICE

Effective Date
November 1, 2006

As an added service beginning November 1, 2006, the Environmental Health Division staff of the Mid-Michigan District Health Department will be collecting a bacteriological and partial chemistry sample from your new water well. This additional service is included as part of your well permit fee.

visit us online at www.mmdhd.org

Once the well has been constructed and chlorinated, the pump and pressure tank has been installed and the well is operational, please contact this department to schedule an inspection. The well must be free of chlorine before a sample can be collected. During the inspection, your MMDHD Environmental Health Specialist will collect the water samples and conduct a construction inspection on your new well.

Please call us if you have any questions.
