

Coronavirus (COVID-19)

PHONE SCAM

Some Michiganders have received phone calls from someone claiming to be a nurse following up on recent test results. They are told they tested positive for COVID-19 and they need to provide their credit card information so that antibiotics can be shipped to them.

THIS IS A SCAM!

If a nurse calls with test results of any kind, she/he will never ask for credit card information. Also, antibiotics are not used to treat COVID-19.
