

YOU WERE TESTED FOR COVID-19

NOW WHAT? *

**WHILE YOU WAIT for your COVID-19 results, protect
your family, friends and community:**

DO:

-  **Stay in a specific specific sick room**, like a bedroom, away from others in your home.
-  **Wear a well-fitting mask.** Make sure it covers your nose and mouth. Remember to stay 6 feet away from people and pets. People who are near you should also wear a mask or cloth face covering that covers their nose and mouth.
-  **Use meal or grocery delivery services when possible** or ask family and friends for help.
-  **Clean and disinfect things you touch**, like light switches, doorknobs, tables and remotes.
-  **Wash your hands often.** Use soap and water for at least 20 seconds. If you do not have soap and water, use hand sanitizer with at least 60% alcohol.
-  **Cover cough and sneezes.** Cough or sneeze into your elbow or a tissue, then wash your hands.
-  **Consider people living with you.** If you live with someone with health conditions, think about whether there are other places you can stay while you get well.

DON'T:

-  **Don't leave home**, unless you need medical care.
-  **Don't share personal items.** Things like dishes, towels, and bedding should not be shared, even with family.
-  **Don't use public transportation**, if you have another choice.

Help is here for you!

Michigan 2-1-1: Visit mi211.org or dial 2-1-1 to connect with resources in your local community, like housing and financial assistance.

MI Bridges: Go to Michigan.gov/MIBridges today to apply for benefits, such as food assistance and health care coverage, and learn about resources in your community.

Michigan Stay Well Counseling: Call 1-888-535-6136 and press "8" to talk with a Michigan Stay Well counselor or visit Michigan.gov/StayWell for more information. Counseling is free, confidential, and available 24/7.

If your COVID-19 test result is POSITIVE, continue to follow the same steps to protect others PLUS:

-  **Tell your close contacts** that they may have been exposed to COVID-19. You could use a tool like MI COVID Alert or tellyourcontacts.org.
-  **See if you are eligible for COVID-19 treatment.** Visit Michigan.gov/COVIDtherapy for eligibility and more information.
-  **If you used an at-home test**, visit Michigan.gov/CoronavirusTest for additional directions.
-  **Answer your health department's call.** You may receive a call. They can also answer your questions.
-  **Watch for severe symptoms or other health emergencies.** If you need to call 911, let them know that you have COVID-19.
-  **Stay home for five days.** If your symptoms are gone after five days or you still have no symptoms five days after test date, you may end isolation. You can leave your home, but must continue to wear a mask for an additional five days. Symptoms may be improving if the following is true:
 - Have not had a fever for at least **24 hours, without the use of fever-reducing medication.**
 - Other symptoms, like cough or shortness of breath, **have improved.**

If you test NEGATIVE, BUT still have symptoms of an illness:

-  **Stay home and away from others.** Until at least 24 hours after symptoms are improved.
-  **Call your doctor.** Ask if you should be tested again, or for another illness, if you continue to have symptoms of COVID-19.

If you test NEGATIVE and don't have symptoms, BUT you were asked to quarantine by the local health department:

-  **Continue to follow the instructions of the health department.**

Contact Tracing: What to tell close contacts

- **If you are fully vaccinated* AND boosted (if eligible), OR if you tested positive for COVID-19 in the last 90 days,** you don't need to quarantine, but get tested on day five and wear a mask when around others for 10 days.
- **If you are unvaccinated, OR not fully vaccinated OR not boosted (if eligible),** start quarantine right away. Stay home and away from others in your home for five days from your last contact with a COVID+ person. Continue to wear a mask around others for an additional five days. If you have questions call 866-806-3447. If you are a student you still may be able to attend school, depending on your exposure type. Visit Michigan.gov/Coronavirus for information.
- **If you develop symptoms,** isolate and get tested right away. You can contact your doctor, visit Michigan.gov/CoronavirusTest to find a testing site, or purchase an at-home test.
- **If you are a close contact,** you might also get a call from MI COVID HELP (866-806-3447). If you miss the call, don't receive a call or have questions, you can call 7 days a week between 9 a.m. and 6 p.m., or call 211.

*People who received two Pfizer and Moderna vaccines within the last five months or one J&J vaccine within the last two months.

For more information, visit Michigan.gov/ContainCOVID.

*This guidance does not apply to health care workers or first responders.
