### PART 2 EMPLOYEE HEALTH AND HYGIENE

Item A-Hygiene Practices: Complete the following, by initialing to verify agreement to comply.

|  | Initial |
|--|---------|
| Employees will report to work clean and in clean clothes:  |         |
| Employees will use proper hair restraints, describe restraint to be used:                                  |         |
|  |         |
| Employees will not use tobacco in the food areas.  |         |
| Employees will not eat in the food areas.  |         |
| Employees will drink only from covered cups with a straw, or equivalent, in the food area.                 |         |
| Employees will cover all cuts with waterproof bandages.  |         |
| Employees will cover cuts on hands with a bandage and a proper glove.                                      |         |
| Employees will not wear nail polish or will cover the nails with gloves.                                   |         |
| Nails will be kept trimmed and clean.  |         |
| Employees will not wear hand/wrist jewelry, with the exception of a plain wedding band.                    |         |
| Soap, paper towels, waste receptacle and a reminder notice will be provided at each hand washing location. |         |

|  |                            |
|  |                            |
| Number and description of handwash station(s):   |                            |
|  |                            |
|  |                            |
|  |                            |
|  |                            |
|  |                            |
|  |                            |
| How is warm water provided to handwash station(s):   |                            |
|  |                            |
|  |                            |
|  |                            |
|  |                            |
|  |                            |
| Item C-Employee Health: Describe how employees will be made aware of health reporting rillnesses and symptoms) as it relates to diseases transmissible through food. Provide copies used in this training. Note: Guidance documents, including posters and forms, are available from | of any handouts or posters |
|  |                            |
|  |                            |
|  |                            |
|  |                            |
| 9 Reviewers Initials: App  | proval Date:               |

The person in charge (PIC) is required to:

- Recognize symptoms of diseases that are transmitted by foods. Common symptoms of illnesses that can be easily spread by food include:
  - o Diarrhea
  - Vomiting
  - o Jaundice
  - Sore throat with fever, or
  - Infected wounds and boils on the hands or arms
- Notify employees of their reporting requirements regarding their health and activities. Employees must notify PIC when:
  - They experience any of the common symptoms that can be easily spread by food:
    - Diarrhea
    - Vomiting
    - Jaundice
    - Sore throat with fever
    - Infected woods and boils on the hands or arms
  - o They are diagnosed as being ill as a result of any of the following pathogens (Big Five)
    - Norovirus
    - Hepatitis A virus
    - Shigella spp.
    - Enterohemorrhagic or Shiga toxin-producing Escherichia coli (E. coli)
    - Salmonella typhi
    - They are exposed to or are suspected of causing a confirmed foodborne illness outbreak of any
      of the Big Five.
    - They live with a household member who has any of the Big Five, or if a household member works in or attends a setting where any of the Big Five have caused a confirmed outbreak.
- Exclude food employees from the unit with the following conditions:
  - o Diagnosed as having an illness associated with a Big Five pathogen
    - For employees diagnosed with one of the Big Five <u>but experiencing no illness symptoms</u>, consult the regulatory authority. Restriction is allowed under some circumstances.
  - Signs of jaundice, (yellowing of skin and/or eyes), and onset occurred in the last 7 calendar days.
  - Symptoms of vomiting and/or diarrhea
- Restrict food employees with the following conditions from working with exposed food; clean equipment, utensils
  and linens; unwrapped single service and single-use items; etc.:
  - Sore throat with fever
  - o An uncovered lesion containing pus, such as a boil, or an uncovered infected wound
- Notify the regulatory authority when an employee is diagnosed with any of the below listed pathogens or is jaundiced.
  - Norovirus
  - Hepatitis A virus
  - o Shigella spp.
  - o Enterohemorrhagic or Shiga toxin-producing Escherichia coli (E. coli)
  - Salmonella typhi
- Reinstate affected food workers who are restricted or excluded. Reinstatement will be performed in the following manner:
  - Any employee excluded due to <u>jaundice</u> or <u>diagnosis with one of the Big Five</u> will be reinstated per written medical documentation from a physician and **approval from the regulatory authority.** Contact the regulatory authority for assistance with other options for reinstatement.
  - Any employee excluded due to symptoms of <u>vomiting</u> or <u>diarrhea</u> will be reinstated after they have been symptom free for at least 24 hours, or after they have provided medical documentation that the symptom is from a noninfectious condition.
  - Any employee restricted or excluded due to illness with <u>sore throat and fever</u> will be reinstated when they have provided medical documentation that they have received antibiotic therapy for *Streptococcus pyogenes* infection for more than 24 hours, they have had at least one negative throat specimen culture for *Streptococcus pyogenes*, or it is otherwise determined by a health practitioner that they are free of *Streptococcus pyogenes* infection.
  - o Any employee restricted due to an uncovered infected wound or pustular boil will be reinstated when the

area is properly covered with one of the following:

- On the hands or wrists, an impermeable cover such as a finger cot or stall with a single-use glove worn over the impermeable cover,
- On exposed portions of the arms, an impermeable cover, or
- On other parts of the body, a dry, durable, tight-fitting bandage
- Assure that the following procedures are met:
  - Require all employees to review this procedure.
  - Monitor employees for visible or obvious symptoms.
  - o Assure that all employees notify the PIC when required.
  - Assure that all food employees comply with exclusions or restrictions.
  - Maintain documents and record of exclusions and restrictions.
  - o Contact the regulatory authority when required and if there are any questions.

### **PART 3 FOOD CONTACT SURFACES**

Item A-Warewashing: Describe how all utensils, equipment, and food contact preparation surfaces will be warewashed (e.g., in basins/compartments, in-place cleaning, or clean-in-place (CIP) equipment). Include the frequency of warewashing, the facilities used, the procedures used, and the sanitizers used. Sanitizer concentration needs to be at concentration as listed on the manufacturer's label for that sanitizer. (NOTE: In-use utensils for time/temperature controlled foods must be washed, rinsed and sanitized at least every four hours)

| Equipment/Utensil                | Frequency        | Method/Facility<br>(Basin/compartments,<br>In-Place, or CIP) | Procedure                      | Sanitizer &<br>Manufacturer's<br>Concentration |
|----------------------------------|------------------|--|--------------------------------|--|
| (Example) Tongs                  | Every 4 hours    | 3 basin sink   | Wash/rinse/sanitize            | Chlorine 50 ppm                                |
|                                  |                  |  |                                |  |
|                                  |                  |  |                                |  |
|                                  |                  |  |                                |  |
|                                  |                  |  |                                |  |
|                                  |                  |  |                                |  |
|                                  |                  |  |                                |  |
|                                  |                  |  |                                |  |
|                                  |                  |  |                                |  |
|                                  |                  |  |                                |  |

#### **PART 4 WATER SUPPLY**

(Note: Water must be obtained from an approved source that has completed state or local sampling requirements, contact the Local Health Department for additional information on non-municipal sources)

**Item A-Water Source and Storage**: Indicate the source of potable water, how water is supplied/delivered (e.g., food grade hoses) to STFU/mobile, and how this water will be stored on board (e.g., water jugs, holding tank). List size of holding tanks or water containers. NOTE: The unit should be equipped with enough water capacity to meet peak water demands while in operation.

| Source of water:   |  |
|--|--|
| Delivery of water to STFU/mobile:                                  |  |
| Storage of water<br>(include size of holding<br>tanks/containers): |  |

**Item B-Cleaning and Sanitizing of Water Supply Equipment**: List method and frequency that water equipment, including holding tanks and food grade hoses, will be cleaned and sanitized and how this equipment will be protected from contamination when not in use.

| Equipment                 | Cleaning/Sanitizing Method        | Frequency        | Protection when not in use    |
|---------------------------|-----------------------------------|------------------|-------------------------------|
| (Example) Food grade hose | Rinsed out with chlorinated water | After each event | Stored in cabinet within unit |
|                           |                                   |                  |                               |
|                           |                                   |                  |                               |
|                           |                                   |                  |                               |
|                           |                                   |                  |                               |
|                           |                                   |                  |                               |
|                           |                                   |                  |                               |
|                           |                                   |                  |                               |
|                           |                                   |                  |                               |
|                           |                                   |                  |                               |

Equipment

| Item C-Backflow Prevention: List equipment that will require backflow prevention and what method of backflow             |
|--|
| prevention will be provided. If a connection will be made to a public water system, describe how the public water systen |
| will be protected from the unit.   |

Backflow Prevention Method

| (Example) Carbonator  | ASSE 1022 device  |
|---|---|
|   |   |
|   |   |
|   |   |
|   |   |
|   |   |
|   |   |
|   |   |
| If connection to public water system is needed, how will th   | e public water system will be protected from unit:  |
|   |   |
|   |   |
| PART 5 SEWAGE DISPOSAL  |   |
| Note: Sewage must be disposed of at an approved sew   | age disposal site.  |
| Item A-Liquid Waste Disposal: Describe how liquid waste Include the capacity/size of waste holding tanks/containers.        | generated in the STFU/mobile will be collected and disposed.  |
|   |   |
|   |   |
|   |   |
|   |   |
|   |   |
| <b>Item B-Backflow Prevention</b> : List equipment that has a draplaced. Describe how this equipment will be protected from | ainline and in which food, portable equipment, or utensils are a sewage "back up" through this drainline. |
| Equipment   | Backflow Prevention Method  |
| (Example) Ice bin   | Air gap between ice bin and waste water holding tank  |
|   |   |
|   |   |
|   |   |
|   |   |
|   |   |
|   |   |
|   |   |
|   |   |

| Item D-Service Sink: If app<br>floor cleaning will be dispos | olicable to STFU/mobile, describe how floors will be cleaned and where waste water from wet ed of.  |
|--|---|
|  |   |
|  |   |
|  |   |
|  |   |
| environmental contaminant                                    | <b>ntal Controls</b> : Describe the methods you will use to keep flying and crawling pests as well as s (e.g., leaves, blowing dust) out of the STFU/mobile (e.g., service windows with air curtains on and/or food is in an open-air environment, describe how this food and/or equipment will be containers). |
| Area of Concern  | Method of Pest & Environmental Contaminate Control  |
| Service windows:   |   |
|  |   |
| Cooking/grilling/smoking locations:                          |   |
|  |   |
| locations: Other equipment                                   |   |

# PART 7 Floors/Walls/Ceiling

| <b>Item A-Floors</b> : Describe the type of indoor flooring to be used. If indoor flooring is not applicable, describe the ground surface the unit will be placed upon when operating.        |
|---|
|   |
|   |
|   |
| Item B-Walls: Describe the type of indoor walls to be installed. If indoor walls are not applicable, describe how food equipment and food will be protected from the surrounding environment. |
|   |
|   |
|   |
|   |
| <b>Item C-Ceiling</b> : Describe the type of indoor ceiling to be installed. If indoor ceiling is not installed, describe how overhead protection will be provided.                           |
|   |
|   |
|   |
|   |
| Item D-Exterior: Describe the exterior construction material of the unit.   |
|   |
|   |
|   |
|   |
|   |

## **PART 8 EQUIPMENT SPECIFICATIONS**

**Item A-Food Equipment**: List food equipment (including cooking, cold storage, hot holding, and food preparation), its make and model, and mark if it is floor or countertop mounted.

| Equipment | Make | Model | Floor<br>Mounted | Counter<br>Mounted |
|-----------|------|-------|------------------|--------------------|
|           |      |       |                  |                    |
|           |      |       |                  |                    |
|           |      |       |                  |                    |
|           |      |       |                  |                    |
|           |      |       |                  |                    |
|           |      |       |                  |                    |
|           |      |       |                  |                    |
|           |      |       |                  |                    |
|           |      |       |                  |                    |

#### **PART 12 DIAGRAM**

**Item A**: **ATTACH** a scaled (indicate scale used) layout diagram of STFU/mobile OR attach photos of interior/exterior of STFU/mobile and equipment and include the dimensions of the STFU/mobile and equipment. Depending upon your regulatory authority, both a scaled diagram and photos may be needed.

It is my intention as the Owner/Operator of this STFU/Mobile to have the information listed above serve as the Standard Operating Procedures (SOPs) for this unit. I understand that:

- The approved SOPs for an STFU must be kept with the unit when it is operating.
- I must operate consistent with those SOPs and menu.

| Owner/Representative                                  | Date   |                    |
|---|--|--------------------|
| ☐ The SOPs have been reviewed and determined          | to be complete and technically accurate. The S     | SOPs are approved. |
|   |  |                    |
| $\square$ The SOPs have been reviewed and have been a | approved, subject to the following stipulation(s): |                    |
|   |  |                    |
