Environmental Health Programs & Services

Food Service Sanitation
Provide educational food safety programs, inspect and license food establishments, review new food service establishment plans and investigate complaints. To report a complaint, please visit our website to complete the online form.

Water Testing Services
Provide water testing to residents for testing of private wells for bacteria, arsenic and other contaminants. Call our office for more information.

On-Site Water / Groundwater Monitoring
Issue well permits and monitor non-community water supply facilities to ensure safety and compliance. Partner with state government to monitor activities in known areas of contamination. Address public concerns regarding groundwater contamination and provide education.

On-Site Sewage / Sewage Disposal
Conduct soil evaluations to determine the suitability of onsite sewage treatment systems, issue sewage permits, register sewage system installers and prevent exposure to untreated waste water.

Septage Waste Haulers
Regulate the service of septic tanks and portable toilets and the transport of septage waste.

Loan Evaluations
Perform water supply and sewage disposal evaluations.

Recreational Water / Beach Monitoring
Inspect all public swimming pools, spas and hot tubs and sample public bathing beaches for bacteria.

Harmful Algal Bloom Surveillance
investigate harmful algal blooms observed in lakes, rivers, and ponds.

Campgrounds
Inspect temporary and permanent campgrounds to ensure safe and sanitary conditions.

Radon Program
Provide education and short-term radon testing devices for your home. Visit your nearest office for free a radon test kit.

Environmental Education
Conduct educational outreach on radon, food safety, water quality and more.

Body Art
Inspect body art facilities (tattoo piercing, branding, permanent cosmetics) to ensure safety. To report unlicensed or unsanitary body art procedures, please visit our website to complete the online form.

Environmental Health Complaints
Investigate complaints and coordinate remediation of unsanitary housing and environmental conditions. To report a complaint, please visit our website to complete the online form.

Other

- Evaluate plats/subdivisions relative to state statues
- Unsanitary Condition Investigations
- Inspect Child Care and Adult Foster Care facilities for compliance
- Sharps Disposal in some counties
- Vector Surveillance

Programs and Services

Community Health Programs & Services

For more information, please call your nearest office or visit: www.mmdhd.org

Women, Infants & Children (WIC)
Provides supplemental food and nutrition education to pregnant and postpartum women and children up to five years of age. WIC has trained breastfeeding peer counselors who provide support and guidance to breastfeeding moms.

Breastfeeding Consultation and Support
Provides breastfeeding support, resources, and education from International Board Certified Lactation Consultant (IBCLC) and Peer Counselors.

Children's Special Health Care Services
Provides financial assistance, care coordination, and support for children and some adults with qualifying chronic, physical, or severe medical conditions.

Immunizations
Provides education, administers vaccines and works with schools, providers and community partners to support vaccination efforts. Science-based online education sessions are available for parents or guardians requesting non-medical immunization waivers.

Hearing and Vision
Provide hearing and vision screenings for preschool and school-aged children, as well as referrals to providers.

Oral Health Initatives
Provide oral health education, fluoride varnish applications, dental sealants, silver diamine fluoride and assessments for preschool and school-aged children.

Blood Lead
Provide blood lead screenings, education and case management services for children with elevated blood lead levels.

Community Health Improvement
The Community Health Assessment (CHA) and Community Health Improvement Plan (CHIP) are road maps that help define the health of our community, identify strategic priorities for community health improvement and highlight assets and resources that are in place to help make those improvements.

Reproductive Health, Sexually Transmitted Infections, Hepatitis C & HIV Services
Provides pregnancy testing and counseling, birth control education, annual physical exams; sexually transmitted infection testing and treatment; Hepatitis C testing and treatment; HIV counseling and testing including PrEP (Pre-exposure prophylaxis), a prevention option for people who are at high risk of getting HIV; free partner notification and follow up services.

Breast & Cervical Cancer Control
Provide physical exams, pap smears and mammograms to uninsured women.

Harm Reduction
Offer programs designed to reduce illness and promote wellbeing for all. These efforts include providing condoms, naloxone, clean syringes, medication lock bags, and gun locks to residents.

Communicable Disease Control
Provide information, education, investigation and reporting of infectious diseases.

Tuberculosis (TB) Control
Provide TB skin testing, medication and monitoring.

Animal Bites and Rabies
Provide consultation for rabies vaccination after an animal bite or other exposure and coordinate testing of animals for rabies as needed.

Emergency Preparedness
Provide tips for families and individuals to plan for emergencies and work closely with community partners to prepare for and coordinate responses.
